From the Director, Employment and Training, Telangana, Hyderabad,  
Lr.No.DET/299/LBI/2020 dt.11.08.2021.

\*\*\*\*\*

ORDER:

In the reference read above the Director, Employment and Training, Telangana, Hyderabad has stated that, A Scheme for Promotion of Innovation, Rural Industries and Entrepreneurship (ASPIRE) scheme was launched by Hon'ble Minister for MSME on 16<sup>th</sup> March, 2015 to setup network of incubation centers to accelerate entrepreneurship among youth. The scheme was started with Rs.200.00 crore budget to create district level incubation infrastructure. The most important component of this scheme is to setup livelihood business incubator (LBI) for promotion of entrepreneurship and skill development. LBI involves setting up of live "demo projects". Any state government departments, institutions can setup LBI to provide necessary skill set for the participants to setup business enterprises and also facilitate market links to ensure self sustainability. Government vide Memo dated.24.09.2020 has permitted the department to implement ASPIRE scheme establishing LBI's in Government Industrial Training Institutes with direction to start LBI scheme in Government Industrial Training Institutes and act as Nodal Agency for LBI scheme in Telangana State and also to empanel a Technical Agency through the process of inviting "Expression of Interest" as per guidelines issued by Government of India and also sanction order issued by MSME for an amount of Rs.300.00 lakhs by selecting six (6) Government Industrial Training Institutes and the amount is also credited.

The details of sanctioned LBI's are as follows:

1. **Government ITI, Siricilla:** Siricilla is the heartland of handlooms, however due to various challenges like lack of technology, access to capital, access to digitalization and market linkages, people whose livelihood income are majorly from handloom are finding it difficult and moving on to the trades. The proposed LBI is aimed at addressing those challenges and help create entrepreneurs who can bridge the gaps by helping the locals get trained in fashion designing and improving the product portfolio.
2. **Government ITI, Wanaparthy:** Wanaparthy district is known for its rich agriculture practices, to strengthen the farmers there is huge need in the district to enhance local production of agriculture input like seeds, fertilizers and seeds. The proposal aims at building entrepreneurs who can establish enterprises required for agriculture inputs.
3. **Government ITI, Khammam:** Khammam district is known for its natural wealth and Bamboo is one among the abundant forest resources available in the district. There is a growing opportunity in bamboo processing with more emphasis being laid for sustainable products. In addition there are artisans in the district who are traditionally dependent on bamboo. The proposed LBI focuses on creating entrepreneurs in bamboo value chain development and helping traditional artisans make products for today's market needs.

(PTO)

4. **Government ITI, Nizamabad:** The LBI proposed at Nizamabad ITI focuses on training individuals in farm sector to build alternative income generation opportunities in farm allied sector. The aim of this LBI is to train people in farm sector to help them enhance their income. The LBI teaches agriculture, dairy, poultry, mushroom cultivation etc.
5. **Government ITI, Medchal:** With close proximity to Hyderabad city, Medchal is an emerging business hub especially for food processing. There is a growing demand for food processing units in the state and Medchal had the location advantage of becoming as a food processing hub by effectively utilizing farm produce, reduces waste and improve the self life. The thrust area in Medchal LBI focuses on demonstrating low cost technologies for small businesses to adapt and create network of enterprises that can help build a sustainable city.
6. **Government ITI, Karimnagar:** Karimnagar has an established network of cottage industry where most household women build products to generate non-farm based livelihood. This network of traditional artisans has brought lot of pride to Telangana state like the silver filigree. However with time, due to advancement in technology, design and decreasing incomes the industry has quickly started to lose its work force. The proposed LBI at Karimnagar aims at bridging the gap by providing alternative cottage industrial opportunities like shoe making, jewellery making and perfume making etc.

2. A meeting was conducted on 23.12.2020 with the line departments like Horticulture, Food processing, Apparel and Textile park, Ni-msme etc. to offer their inputs on implementation. As their co-operation and Technical Competency is very much required to make the programme success. All participants have appreciated the proposal. As per the sanction orders issued by MSME there is no provision for recurring cost to meet the day to day expenses, to conduct trainings and handholding of trainers. The objectives of ASPIRE scheme and deliverables of LBI are in line with other existing capacity building and skill development schemes of Government of India and Government of Telangana administered through various Ministries. For example the curriculum proposed under ASPIRE is NSQF compliant, as a result direct convergence can be made under Pradhan Mantri Kaushal Vikas Yojana (PMKVY) 3.0 and similar programmes.

3. As per the operational guidelines of ASPIRE, under section Evaluation and Monitoring, sub section general guidelines as follows:-

“There shall be a Governing Board at the level of the designated agency for LBI i.e., NSIC, KVIC or Coir Board or any other Institution/agency of Government of India/State Government consisting of not more than 5 members consisting of one representative from NSIC, KVIC, Coir Board and two members from the State Government to provide operational inputs for day-to-day function of Incubators. The Governing Board of Incubators will be shared by one of the partner member incubators from amongst them. The Governing Body of the incubator should meet every quarter of a financial year to review and provide Operational Guidelines for smooth functioning of the incubator. The Governing Board shall act as body to provide feedback and recommend required policy changes to the advisory committee and SSC.”

(PTO)

4. Accordingly, the Director, Employment and Training, Hyderabad has proposed and requested to issue orders constituting “**State Advisory Committee**” at State Level and “**Governing Board**” for better implementation of ASPIRE (LBI) scheme and also for all Skill Development Activities in each of the LBI to coordinate and facilitate all Skill and Entrepreneurship Development Activities with the following composition:
